Before permit issuance, all parties must sign this agreement. Please note that failure to comply with special inspection requirements could be expensive in terms of retrofit design construction as well as delays in the project.

**PART 2 – STATEMENT OF SPECIAL INSPECTION**

This statement must accompany permit applications for all construction for which special inspections and observations are required in Section 1704 and 1709 of the International Building Code.	
Project Name:	
Project Address:	
Owner:	Telephone:

This is to certify that all the inspections and observations that I have checked on pages 2-3 **and** on page 4 of this statement are required for the project named above and will be performed by the designated individuals or firms. By signing this statement, I also acknowledge that:

- These inspections and observations must be performed by competent individuals in accordance with Sections 1704, 1705 and 1709 (as applicable) and that the construction work must comply with the approved plans and specifications and all applicable provisions of the Uniform Construction Code;
- Records of all required special inspections and testing observations (including any discrepancies and methods of correction of these discrepancies) will be retained and made available to CRCA representatives, upon request; and,
- **The final report section of the statement must be signed by me and a copy of this statement submitted to the CRCA inspector, at the time that the final inspection is performed and before a certificate of occupancy is issued.**

**Seismic Requirements** (*Section 1705.3.1*)

Description of seismic-force-resisting system and designated seismic systems subject to special inspections as per Section 1705.3. Describe the Seismic resisting system in the longitudinal and transverse directions.

The extent of the seismic-force-resisting system is defined in more detail in the construction documents.
