MPMS #: 112406

Title: Buy 60' articulated bus

Air Quality Status: Exempt from Regional Conformity Analysis

County: Centre

Air Quality Exempt Reason: M10 - Purch new buses & cars for rplcmnt or mnr expan.

Narrative: Funding will be utilized toward the purchase of one 60-foot articulated CNG-powered bus to expand CATA's fleet.

CATA already has funding in place through PennDOT for the purchase of a single articulated bus, but there must be at least two articulated buses in the fleet to allow operational feasibility (to facilitate switching out buses for things such as preventative maintenance and other repairs, as well as for maintaining general spare availability). Thus, this funding is necessary to move forward with CATA's intended launch of providing service with articulated buses by purchasing a second articulated bus. An implementation study for the operation of articulated buses has already been completed.

As there is currently only one manufacturer of CNG-powered articulated buses, this purchase can be undertaken quickly through the abbreviated sole-source procurement process.
